

Welcome to
Mrs. Robinson's
5th grade

I would like to welcome you to grade 5. Grade 5 is a big transitional year and there is so much to learn. We do a great deal of projects in 5th grade and cover a lot of material to prepare for middle school. I like to make learning fun for everyone!

One of the projects we do is a Thanksgiving display to learn about the First Thanksgiving. Once the table is done we present it to all the classes and teach everyone what we learned.

In Social Studies we do a project on Explorers. Another exciting project everyone loves. During this project we research an explorer of choice and learn many things about this person. We learn about the route the explorer took, the reason for doing the exploration and the life of the explorer. Each explorer gets presented to our classmates and we get to learn about each other's project.

In March we gather with the 5th grade class from St. Margret's school and participate in the Rooster games. Rooster Games is a very exciting event. Everyone entering 5th grade looks forward to these games.

The year goes by very fast and before you know it, it is time for middle school. We spend most of the year getting ready for the middle school transition and we are well prepared when the time comes.
